

# **Motivation Letter Template for JEMARO Programme Application**

In order to show your motivation for the JEMARO programme, your letter must include in this order, the following sections. Your letter will be limited to two pages in font 12:

1 - Personal introduction.

2 - Recall of your undergraduate curriculum and highlight links to JEMARO Master programme.

3 - State in short why you want to apply to JEMARO and why you chose a given robotics-related research topic (Control, Mechatronics – Robotics, Human Interface – Signal Processing, Computer Science, Biological Information) to work on during the Research Track.

4 - Develop your strongest qualifications, past experiences and qualities that will help you to succeed in JEMARO.

5 - Develop what will be your professional project after getting your master's degree.
